### FOOD PRICE INDICES

#### 1. EU consumer food price indices

The EU consumer food price index measures the change over time of the prices of consumer goods and services acquired by households. The food products included in this index are those purchased for consumption at home and include the following categories: bread and cereals, meat, dairy, meat, fish, milk, cheese and eggs, oils and fats, fruits, vegetables, sugar, jam, honey, chocolate and confectionery and other food products (ex. salt, condiments and spices, baby food, etc.).

A detailed description of its composition can be found on Eurostat website at:
